

PPC Active Cream The Ultimate Home Care

Essential Benefits

- Accelerates results of treatments
- Smooths Cellulite
- Enhances Skin Tone
- Increases Skin Elasticity

How It Works

- PPC is an advanced solution (derived from Soybean) for the reduction of **cellulite** and **excessive fat**.
- The **micronised active ingredient** is **penetrated** into the skin and acts in the **subcutaneous fat**.
- It generates **heat** under the skin layer, **increasing local metabolism**.
- **Increases excretion (sweating) and blood flow**. These consecutive actions help to **regulate the fat cells** in the **subcutaneous layer**.
- When combined with professional treatment and following a healthy lifestyle **results can be expected in 2-3 weeks**.

Ingredients

- **PPC** (Phosphatidylcholine) **increases the levels of Triglyceride lipase** - a natural **enzyme** in the body that **decreases** the amount of **fat inside the cell**.
- **L-Carnitine** – amino acid, encourages the **metabolism** of the fat. Increases **energy** and **fat burning**. It **transports fatty acids** in to the **mitochondria** of the cell.
- **Sodium Deoxycholate** – encourages the **break-up of fat cells**. Often used in mesotherapy injections for cellulite.
- **Caffeine** – Creates short term **water loss** in the skin to give a **smoothing and tightening effect** on the skin.

30 lipo OD Ireland Heat

- Applying the PPC to the fat will **increase the temperature** of the **fat cell** by **1-2 degrees**. This will create a **'melting'** **within the fat cell** and a **cell stimulating effect** in the area.
- The PPC cream and ampoules contains **Capsicum (chilli)**, this also **increases the temperature** within the skin to **enhance this effect**.
- This **heat sensation** will be generated within **5-10 minutes** and last for approximately **30 minutes within the skin**.

3D lipo Ireland Results

- Increased metabolism and living a healthy lifestyle can increase the results of the Cryofuse treatment with PPC.
- Using the cream on a daily basis combined with treatment your client can expect to see results in approximately 2-3 weeks.

3D lipo Treatment Protocol

3D lipo Ireland

- Every treatment that is finished off with shockwave, excluding any cryo treatments, therapist to use PPC as medium
- During application PPC to be upsold to client

- Whilst applying PPC cream, explain the benefits of this product and how it enhances results if used as a homecare product daily
- Explain to the client that they will start to feel a heat/tingling sensation
- Talk client through why they are feeling heat sensation, this is due to the active ingredients i.e. red chilli extract
- Tell the client that we do have this product available in reception and its priced at £29.95
- During treatment re-iterate to client and ask if they can feeling it working and emphasise the fact its really working and its benefits tailored to that individual i.e cellulite

- During handover to reception, ask the client if they would like a PPC cream to take away with them today, if yes then collect PPC product, put in a bag and give to the client
- Give the client directions of use, advising what time of day to apply/ how often.
- Explain to client that if you will leave them with reception and that it was lovely to see them and you look forward to seeing them again soon.
